6 August, 2019

United Dynamics relocates to our new larger facility.

The relocation was completed in April 2019. The new facility is located less than ½ mile west of our previous location. United Dynamics will continue to use and operate both facilities with the corporate offices based at the new address. The combined space is now approximately 40,000 square feet.

The new facility, located at 41001 Wolverine Road provides significantly more office and shop space and will allow UDI to plan for future growth.
